

ABOUT ITRUST

iTrust provides cybersecurity risk ratings and risk intelligence to help businesses build trusted relationships with their vendors, partners, and suppliers. iTrust collects cybersecurity and compliance data from third-party providers, crowdsourced intelligence, and proprietary data feeds. iTrust uses this data to develop dynamic iTrust cybersecurity risk intelligence to deliver 360° cybersecurity and compliance visibility. This intelligence enables enterprises to mitigate cybersecurity risks and manage third-party trust relationships. From our headquarters in Atlanta, Georgia, iTrust serves organizations of all sizes, both public and private, across multiple industries, in the United States and around the world. Visit www.iTrustInc.com for more information.

COMPANY BACKGROUND

iTrust was conceived and developed by the team at TrustNet (www.TrustNetInc.com), a ten-year-old cybersecurity and compliance consulting firm. TrustNet has deep experience in helping large and mid-size blue-chip clients build trusted relationships with their customers, partners, and employees. TrustNet is a Payment Card Industry Qualified Security Assessor and provides cybersecurity and compliance products and services around Managed Security, Compliance Assessments (PCI, HIPAA, SOX), and Penetration Testing. iTrust is able to leverage TrustNet's existing relationships with clients in the target market.

MANAGEMENT TEAM

Trevor Horwitz is CEO and co-Founder of iTrust. He has over twenty years' experience in cybersecurity and compliance and is widely recognized as an industry expert. Previous roles include CEO of TrustNet, CEO of Reflex Security, VP of ExpoExchange, VP of

Enterpulse, CEO of New Media Productions, VP IT Operations at a division of Corporate Express (NASDAQ: CEXP), and Senior Associate at PwC. He has led multiple companies through liquidity events. He is PCI Qualified Security Assessor and the current President of InfraGard Atlanta.

Mike Kerem is Chief Technology Officer and co-Founder of iTrust. Mike has over twenty years' experience in cybersecurity and compliance. He was previously the CTO of TrustNet, CISO of Skynet InfoSec, and Technical Director of Neotec. As co-Founder and CTO of

BackupOnline, Mike led ground breaking development for one of the world's first cloud storage providers. BackupOnline was venture funded prior to its' acquisition by MGX Holdings Limited (JSE:MGX).
